

LIST OF PUBLICATIONS

The List of Publications document has been replaced by the CV and Outputs list Template. This new document contains space for the CV and the List of Outputs (including publications) and should be uploaded as a CV on Je-S. A separate List of Publications should not be uploaded in addition to the CV and Outputs list.

The List of Publications is still a mandatory document for the submission of your application in the Je-S system and so in order to submit an application to Round 4, applicants will need to upload either this document or a blank pdf in place of the List of Publications. Please note, this document will not be sent to reviewers or panel members and so should not contain any information that should be included in the CV and Outputs document.
