RESEARCH COUNCIL NOTICE PERIOD POLICY

Policy statement

The purpose of the Notice Period Policy is to outline the Research Council's requirements for notice of termination of employment, either by the employee or the Research Council.

The Research Council may in certain circumstances have to give notice of termination of appointment. The Research Council will ensure that each decision is taken in accordance with appropriate procedures and is fair and reasonable.

The Notice Period Policy is agreed with the Trade Union Side and complies with legislation.

The Notice Period Policy applies to all employees of the Research Council. This includes those employed on temporary contracts but excludes Visiting Workers, Students or those workers provided by a third party agency.

For employees holding limited leave to remain and/or right to work limitations, implementation of this policy may be subject to Home Office immigration rules. Before making decisions or taking any action relating to this policy advice must be sought from your retained HR Team.

The UK Shared Business Services Ltd (SBS) provides HR Services across the Research Councils. However some employees are deployed at establishments/facilities/ships that do not access services from SBS. In these cases references to the SBS or System (Employee Self Service) will not apply and employees should refer to their Research Council HR team for assistance.

Whether a worker is deemed to be a worker or employee is not always clear under employment legislation. In cases where managers or employees have any doubt as to whether the Research Council Notice Period and associated procedure should apply, advice should be sought from the Research Council HR team.
