Dear [Name],

Freedom of Information request: 2018/0230 IUK

Thank you for your Freedom of Information request received on 28th November 2018 in which you requested the following:

Your Request:

The project titles and scores of applications that were successfully funded through Innovate UK’s Open Grant Competition: Round 2.

Our response:

I can confirm UK Research and Innovation hold information relevant to your request.

Please see the information relevant to your request below.

Details of the project titles of the successful applications will be published in Innovate UK's transparency data, located on the Innovate UK website.

As this is the case the information you have requested is exempted from disclosure as it is intended for future publication. We are not obliged under Section 22 of the FOIA to provide information that is intended for future publication. Innovate UK publish the successful applicants to their competitions. The information can be found on the transparency data on the below links. The successful projects in the Open round 2 competition will be published in this location in due course once we have conducted all due diligence required under the Grant Funding Agreement.

The score of each application is confidential therefore Innovate UK do not publish this information, as this is the case we are exempting the scores of the applicants as we believe this falls under Section 41 of the FOIA, Information Provided in Confidence. To explain further, applicants submit their grant proposal in confidence with the understanding that details of their application, including their scores will remain confidential. If released we believe it would result in an actionable breach of confidence. As this exemption is absolute there is no requirement to conduct a public interest test.

Although we cannot reveal the individual scores of projects we can reveal the highest and lowest scores achieved in the competition. Please find this information below:
