Dear [Redacted]

Freedom of Information request: 2019/0039

Thank you for your freedom of information request received on the 7th February 2019 in which you requested the following:

Your request:

Research England are currently creating the Knowledge Exchange Framework (KEF) for UK universities. One of the metrics they are currently consulting on is: “Innovate UK income (KTP and Grant) as a proportion of research income” and state that the source of this information will be Innovate UK.

I have just spoken to the Innovate UK contact centre who recommended that I take my request for data through this FoI channel.

If data for this metric has already been sent to Research England, could I get a copy of it please? That would be “Innovate UK income (KTP and grant) as a proportion of research income” split by higher education provider, for the most recent three years of available data.

If it hasn’t already been shared, could I get data for the same results please? That would be “Innovate UK income (KTP and grant) as a proportion of research income” split by higher education provider, for the most recent three years of available data.

If the “proportion of research income” is unable to be calculated, could I just get details of Innovate UK income (for both KTP and grant), split by higher education provider, for the most recent three years of available data please.

Our response

I can confirm UK Research and Innovation do hold information relevant to your request.

The information you have requested can be found on Innovate UK’s transparency data on the below link. This includes information on the organisation funded (column K), the programme title (column C) and the project cost (column P).

Innovate UK funded projects since 2004
