Funding type:	Fellowship
Publication date:	20 September 2020
Opening date:	N/A
Closing date:	Open - no closing date

Last updated: 23 October 2020

These fellowships are for those looking to return to a research career after a break of two or more years for family, health or caring reasons. The aim is to give participants the confidence and skills they need to make a successful return to research.

They provide an opportunity to balance a personalised retraining programme with a challenging research project, in a supportive UK university or research establishment.

They are flexible, with at least 100 hours retraining per year, and part-time – usually completed over two years at 0.5 full-time equivalent although some UKRI funders may award longer than this.

Who can apply

Daphne Jackson fellowships are retraining fellowships open to all researchers across science, technology, engineering, mathematics, social sciences, arts and humanities, and other related disciplines.

[Find out more about eligibility on the Daphne Jackson website.](#)

How to apply

You will need to apply to the Daphne Jackson Trust.

You can view current opportunities on the [Daphne Jackson Trust website](#). Sponsored fellowships are also advertised on university websites and on [jobs.ac.uk](#).

Alternatively, if you know the area of research you would like to return to or have identified a potential host institution or supervisor, you can apply for a Daphne Jackson fellowship at any time. You should [contact the Trust](#) for advice.

Contact details

The Daphne Jackson Trust is based in the Department of Physics at the University of Surrey:

The Daphne Jackson Trust
Department of Physics
University of Surrey
Guildford
Surrey
GU2 7XH

For all enquiries, call 01483 689166 or email djmft@surrey.ac.uk.

Additional info

The Daphne Jackson Trust works in partnership with universities, research councils, learned societies, charities and industry, to support those wishing to return to a research career.

The fellowships are funded by organisations such as UKRI and learned societies. The Daphne Jackson Trust does not provide the funding but acts as a facilitator

between the sponsor and the fellow, providing the infrastructure and dedicated staff to recruit and retrain fellows and administer the awards.

Daphne Jackson fellows also take part in three tailor-made courses during their fellowship. The courses cover professional skills, how to publish and how to improve your confidence.
