## UK Research and Innovation

## **EPSRC - Equality Impact Assessment**

	Question	Response		
1.	Name of funding activity being assessed	Turing AI World-Leading Researcher Fellowship		
2.	Summary of aims and objectives of the funding activity	This programme, part of a broader UK government investment in Turing Artificial Intelligence (AI) Fellowships, aims to build capability and capacity in AI research through the retention and and international recruitment of world-leading researchers in AI.		
3.	What involvement and consultation has been done in relation to this policy? (e.g. with relevant groups and stakeholders)	Engagement with partners in UKRI, BEIS, the Office for AI and the Alan Turing Institute.  Support from EDI and People, and Business Improvement teams.		
4.	Who is affected by the funding activity?	Turing AI World-Leading Researcher Fellowship applicants and staff at their host organisations. EPSRC staff delivering the activity.		
5.	What are the arrangements for monitoring and reviewing the actual impact of the funding activity?	Staff running the call will, where possible, monitor delivery of each round including:  Reviewers and panel members are monitored by gender, age and ethnicity. Panel membership for each meeting is published on the EPSRC website and EPSRC's GoW  Mid-term review of the programme  Ongoing monitoring and fellow engagement  Review of outcomes and benefits and continued monitoring for several years after the end of the grant  Research outcomes will be collected via ResearchFish.		

As a funder of research, EPSRC remains committed to attracting the best potential researchers from a diverse population into research careers. The Research Councils have together developed the ambitious RCUK Equality, Diversity and Inclusion Action Plan to outline our collective aspirations for working with the research community, and partners throughout the sector. For policy changes, funding activities and events EPSRC will aim to:

- Select venues that are accessible and where possible accommodate any specific requirement in our planning and organisation of an initiative to support wider participation. This includes for applicants, reviewers, panel members and staff. Included in the interview invitation letter is a request for any access issues to be notified.
- All participants in the process are asked to inform staff if they have any additional needs to enable attendance or participation.
- Offer support for people with caring responsibilities, further details are available <u>here</u>.
- Clearly communicate the timeline and key milestones for funding activities, advertise these widely to reach the largest possible audience.

- Support and encourage panel members to follow best practice in taking positive steps to safeguard funding decisions. Staff will work closely with the Panel Chair(s) to agree approaches that are designed to minimize opportunities for bias and improve transparency of the decision making process. This includes managing environmental conditions, such as providing appropriate breaks.
- Support flexible working of stakeholders.
- Ensure diversity of peer review assessment and interview panels. Staff will adhere to a mixed panel policy and endeavor to achieve the minimum 30% for the underrepresented gender on the panel.
- Abide by the principles of peer review
- Provide EPSRC staff with tailored unconscious bias training for Peer Review processes and clear guidance for assessors.
- Handle personal sensitive information in compliance with General Data Protection Regulation 2018.

Age	Potentially positive or negative	The scheme is aimed at world-leading researchers which could affect individuals from some age categories.	dates don't coincide with UK school holidays.  Unconscious bias briefing will be given as part of the panel guidance and panel presentation.  EPSRC presence at assessment meetings and during interviews acts as an additional assurance to help ensure unbiased peer review.  There are no age bound eligibility criteria for this call, which focuses on the qualities of the applicant.  Other opportunities are available via other schemes for individuals at other career stages.
Additional aspects (not covered by a protected characteristic)	Those with caring responsibilities – potential negative	Applicants and panel members will need to travel to interview and meetings.	EPSRC will not to hold interviews over school holiday periods and will adapt the approach according to other caring responsibilities.  Details of help EPSRC can provide is on the website.

## **Evaluation:**

Qu	estion	Explanation	/ justification
Is it possible the proposed change in funding activity could discriminate or unfairly disadvantage people?		No. The application will be open to the wider UK community and applications will be reviewed and scored against assessment criteria. Reasonable adjustments will be made to the logistics to facilitate those with disabilities.	
Fin	al Decision:	Tick the relevant box	Include any explanation / justification required
1.	No barriers identified, therefore activity will <b>proceed</b> .	x	
2.	You can decide to <b>stop</b> the policy or practice at some point because the data shows bias towards one or more groups		
3.	You can <b>adapt or change</b> the policy in a way which you think will eliminate the bias		
4.	Barriers and impact identified, however having considered all available options carefully, there appear to be no other proportionate ways to achieve the aim of the policy or practice (e.g. in extreme cases or where positive action is taken). Therefore you are going to proceed with caution with this policy or practice knowing that it may favour some people less than others, providing justification for this decision.		

Will this EIA be published* Yes/Not required (*EIA's should be published alongside relevant funding activities e.g. calls and events:	Yes
