

# Mikoko Pamoja

A blue carbon Project

Acting along the SDGs

*Equator prize 2017 winner*  
for outstanding work in conservation

More than **70 %** of PES income directly benefits  
**2** local communities by implementing  
community development projects

Bought over **600** textbooks for **2** local  
schools, **renovated** Classrooms and donated  
desks to **40** pupils. We also run environmental  
**education programs** to students and  
members of the public

Provided water for over **3500** people, **2** primary  
schools, bought a water tank for **1** secondary school  
and equipped **1** local dispensary with furniture

Accredited to sell **3000t**  
**CO2** equivalent annually  
for **20** years

Planted over **10,000**  
mangrove seedlings so far

We are the **first community based**  
**carbon offset project** to restore and  
protect mangroves through the  
sale of carbon credits

Created **Partnerships** with  
international institutions such as  
universities and funding agencies

Mikoko Pamoja is Conserving biodiversity, developing the  
community and promoting environment conservation
