## Data sources for mainstream QR funding

Our mainstream quality-related research (QR) funding is allocated selectively according to quality.

The source data we have used to calculate mainstream QR funding for 2019-20 has not changed since the 2015-16 mainstream QR funding allocations. We use data from the 2014 Research Excellence Framework (REF 2014), with the volume measure calculated from Category A FTE staff submitted to REF 2014 attributable to quality levels 3\* and 4\*.

In the mainstream QR funding Excel file the column headed 'Quality-weighted volume' contains the volume measure multiplied by the quality weighting. For 2019-20, the following quality weightings were applied to the REF 2014 quality sub-profiles:

Quality level	4*	3*	2*	1*	Unclassified
Quality weighting	4	1	0	0	0

## Data sources for QR RDP supervision funding

The following data were used to allocate the QR Research degree programme (RDP) supervision fund:

Indicator	Source of data for 2016-17	Source of data for 2017-18	Source of data for 2018-19	Source of data for 2019-20
Eligible postgraduate research student FTEs	HESA Student Record	HESA Student Record	HESA Student Record	HESA Student Record
	returns covering the period			
	2005-06 to 2014-15	2010-11 to 2015-16	2011-12 to 2016-17	2012-13 to 2017-18

## Data sources for QR charity support funding

The following data were used to allocate the QR Charity support element:

Indicator	Source of data for 2016-17	Source of data for 2017-18	Source of data for 2018-19	Source of data for 2019-20
Research income from UK, EU and non-EU-based charities (open competitive process)	Average of 2013-14 and 2014-15 income taken from HESA Finance Statistics Return Table 5b for net research grants and	Average of 2012-13, 2013- 14, 2014-15 and 2015-16 income taken from HESA Finance record Table 5/5b for total/net research grants	Average of 2013-14, 2014- 15, 2015-16 and 2016-17 income taken from HESA Finance record Table 5/5b for total/net research grants	Average of 2014-15, 2015- 16, 2016-17 and 2017-18 income taken from HESA Finance record Table 5/5b for total/net research grants
	contracts and Table 6a for research studentships from charities	and contracts and (for the last year) deferred income deducting co-investment income, and Table 6/6a for research studentships from charities	and contracts and (for 2015-16 only) deferred income, deducting co-investment income, and Table 6/6a for research studentships from charities	and contracts and (for 2015-16 only) deferred income, deducting co-investment income, and Table 6/6a for research studentships from charities

## Data sources for QR business research funding

The following data were used to allocate funds for the QR Business research element:

Indicator	Source of data for 2016-17	Source of data for 2017-18	Source of data for 2018-19	Source of data for 2019-20
Research income	Average of 2013-14 and	Average of 2012-13, 2013-	Average of 2013-14, 2014-	Average of 2014-15, 2015-
from UK, EU and	2014-15 income taken from	14, 2014-15 and 2015-16	15, 2015-16 and 2016-17	16, 2016-17 and 2017-18
non-EU industry,	HESA Finance Statistics	income taken from HESA	income taken from HESA	income taken from HESA
commerce and	Return Table 5b for net	Finance record Table 5/5b	Finance record Table 5/5b	Finance record Table 5/5b
public corporations	research grants and	for total/net research grants	for total/net research grants	for total/net research grants
	contracts	and contracts and (for the	and contracts and (for	and contracts and (for
		last year) deferred income	2015-16 only) deferred	2015-16 only) deferred
		deducting co-investment	income deducting co-	income deducting co-
		income	investment income	investment income
