# Résumé for Research and Innovation

1. The Résumé for Research and Innovation (R4RI) is a flexible template designed to allow you to showcase relevant skills and experience. The 4 modules provide a framework for inputting these.
2. You may download and use this template to draft your R4RI before inputting into the Capability to Deliver section on The Funding Service system.
3. General guidance on filling out your R4RI can be found on the [UKRI website](#). However, each application is different and the R4RI template can be used in assessment in multiple ways. Please refer to **the specific funding opportunity guidance** for details on how it will be assessed.
4. If opportunity guidance states you are required to fill out an R4RI as a team, you may find the following table of use. Add or delete rows as necessary. The table does count towards word limits.
5. If applying as an individual, delete this table as it does count towards word limits

## Team composition

| Team member | Initials | Short role descriptor (max 100 characters) |
|-------------|----------|--------------------------------------------|
|             |          |                                            |
|             |          |                                            |
|             |          |                                            |
|             |          |                                            |
|             |          |                                            |
|             |          |                                            |
|             |          |                                            |

**UK Research  
and Innovation**

**Module 1 – Contributions to the generation of new ideas, tools, methodologies or knowledge**

|  |
