

ESRC - Equality Impact Assessment for Outline and Full Panel Stage of Call

	Question	Response
1.	Name of policy/funding activity/event being assessed	Place-based approaches to sustainable living
2.	Summary of aims and objectives of the policy/funding activity/event	ESRC large research grant funding opportunity to increase the understanding of place-based approaches for a sustainable future, enabling enhanced evidence-based decision making. This should be achieved with interdisciplinary research on place-based approaches for an
		environmentally sustainable future. Desired outcomes:
		• Enhanced understanding of environmental challenges and solutions from a place-based perspective in order to develop findings, tools and theories, which can be applied by local and national policymakers, communities and practitioners.
		 Co-produced solutions and/or enhanced understanding of place-based approaches for a sustainable future.
3.	What involvement and consultation has been done in relation to this policy? (e.g. with relevant groups and stakeholders)	 Scoping with various academics in the related environmental social science landscape led by ACCESS. ACCESS produced a survey which was available to relevant external academics to complete and held discussions with the wider ACCESS network. They collated the information, and will publish a summary of their findings. Discussions on scoping with representatives from relevant government departments and nature agencies (Defra; DAERA; DfT; DLUHC; NRW; NatureScot; Natural England; Forest Research; Environment Agency; BEIS; Scottish Government; Welsh Government; FSA; Cabinet Office) Discussions on scoping with UKRI councils and advisory groups (NERC; EPSRC; AHRC; IUK; ESRC; ESSSAG)
4.	Who is affected by the policy/funding activity/event?	 Consultees in the scoping stage. Applicants for the programme. Panel members for the call. ESRC staff delivering the scheme and attending the panel meetings for the Call.

		User communities/stakeholders
		 Existing UKRI investments
5.	What are the arrangements for	 Proposals will be assessed by expert review.
	monitoring and reviewing the actual	 Progress will be monitored through regular
	impact of the policy/funding	reporting and meetings with funders
	activity/event?	 Researchfish for capturing information on

Gender reassignment	Potentially negative	UKRI records may show the wrong gender. Trans people may be absent from work as a consequence of transition.	 Avoiding colours, lighting etc that may trigger migraines, epilepsy; Consider (on a case-by- case basis) paying T&S for carers or support workers to attend alongside the participant, where this is required and not covered by the Individual's own employment contract. Consideration needs to be given at UKRI level as to how records (including Gateway to Research and other communications materials) might be adjusted. UKRI terms and conditions are flexible in nature and absence as a result of medical treatment. We would expect that absence related to transition would be covered by the RO's sick policy and strongly encourage ROs to treat absence relating
Marriage or civil	None		to treat absence relating to transition like any other medical absence. We can request participants at panel meeting include their preferred pronouns within their zoom signature for ease of inclusion in meeting.
partnership Drognongy and		Derentel legue may	Drovision for parantal
Pregnancy and maternity	Potentially negative	Parental leave may prevent people from attending the panel, or feeling that they cannot participate due to caring for children/attending appointments.	Provision for parental leave (including maternity leave, paternity leave, and leave related to surrogacy and adoption) are covered in the UKRI terms and conditions. We shall ensure the use

of gender-neutral language – e.g use the term parental leave instead of maternity/paternity. The costs of additional childcare for grantholders, beyond that required to meet the normal contracted requirements of the job, and that are directly related to the project, may be requested as a directly incurred cost if the institutional policy is to reimburse them. However, childcare costs associated with normal working patterns may not be sought. (See UKRI fEC FAQs) If the Panel meeting is
term parental leave instead of maternity/paternity. 		to somebody (either a peer reviewer, panel member, a research applicant) has a particular sexual orientation.	appoint a diverse panel membership. Final decisions take into account trying to balance the panels by gender and geography and seek to ensure a diversity of career stage and institutions. We will only make recruitment decisions which compromise diversity when it is objectively justified by the necessity to ensure the required breadth of subject expertise with high quality candidates. The panel chair will restate considerations of unconscious bias by briefing the panel at the start of the meeting.
Sex (gender)	Potentially negative	There could be potential for discrimination because it is known to somebody (either a peer reviewer, panel member, a research applicant) has a particular gender Use of language can present a barrier to participation and it may be perceived that those with caring responsibilities are disadvantaged. Panel members may be disadvantaged and unable to attend meetings if they have caring responsibilities	Whilst panel members are appointed, first and foremost, based on expertise, we will aim to appoint a diverse panel membership. Final decisions take into account trying to balance the panels by gender and geography and seek to ensure a diversity of career stage and institutions. We will only make recruitment decisions which compromise diversity when it is objectively justified by the necessity to ensure the required breadth of subject expertise with high quality candidates. The panel chair will restate considerations of unconscious bias by briefing the panel at the start of the meeting. Ensure use of gender neutral language in call

			specification, guidance, etc. Ensure that the panel has balanced gender representation (aim for at worst 60:40 split)
Age	Potential positive or negative depending on the scheme eligibility requirements	Early career researchers* may be disadvantaged as they don't have the same track record to draw on as an experienced researcher. (*It is assumed that early career researchers are generally younger than their more experienced peers, although this by no means always the case. This is why this point has been included under 'age').	Panel members will be appointed based on their expertise in subject and geographical areas without restriction on career stage. They will also be briefed to make clear that they should be assessing the application in front of them and not reading between the lines. They should assess an individual's capability to deliver their proposed research. Use of a variety of different communication strategies including social media to ensure that our messages reach the widest possible target audience.

Evaluation:

Que	estion	Explanation	/ justification
Is it possible the proposed change in policy, funding activity or event could discriminate or unfairly disadvantage people?		Yes, but steps described above have been taken to mitigate the likelihood of this in the areas covered.	
Fina	al Decision:	Tick the relevant box	Include any explanation / justification required
	No barriers identified; therefore activity will proceed .		
2.	You can decide to stop the policy or practice at some point because the data shows bias towards one or more groups		
	You can adapt or change the policy in a way which you think will eliminate the bias	x	Yes, but steps described above have been taken to mitigate the likelihood of this in the areas covered
	Barriers and impact identified, however having considered all available options carefully, there appear to be no other proportionate ways to achieve the aim of the policy or practice (e.g. in extreme cases or where positive action is taken). Therefore you are going to proceed with caution with this policy or practice knowing that it may favour some people less than others, providing justification for this decision.		

Will this EIA be published* Yes/Not required (*EIA's should be published alongside relevant funding activities e.g. calls and events:	Yes
