Evaluation:

| Question | Explanation / justification | |
|---|---|---|
| Is it possible the proposed policy or activity or change in policy or activity could discriminate or unfairly disadvantage people? | There is potential that some groups may be disadvantaged but with the mitigations stated above in place this has been minimised. Support will be provided to individuals where they are identified. | |
| Final Decision: | Tick the relevant box | Include any explanation / justification required |
| 1. No barriers identified; therefore activity will proceed . | | |
| 2. You can decide to stop the policy or practice at some point because the data shows bias towards one or more groups | | |
| 3. You can adapt or change the policy in a way which you think will eliminate the bias | ✓ | There is potential that some groups may be disadvantaged but with the mitigations stated above in place this has been minimised. Support will be provided to individuals where they are identified. Our monitoring process will enable us to identify unforeseen barriers and address them through adaptation if necessary. |
| 4. Barriers and impact identified, however having considered all available options carefully, there appear to be no other proportionate ways to achieve the aim of the policy or practice (for example, in extreme cases or where positive action is taken). Therefore, you are going to proceed with caution with this policy or practice knowing that it may favour some people less than others, providing justification for this decision. | | |
