

# UKRI Interdisciplinary Assessment College Membership

August 2024

The UKRI Interdisciplinary Assessment College was appointed in 2023 for the assessment of applications to two rounds of the Cross Research Council Responsive Mode pilot scheme. The college comprises 298 members who have been appointed to 2 specific pools:

- Chair and Rover pool (69 members)
- Panel Member pool (229 members)

Rovers are members of the IAC Chair Pool who are key to ensuring the consistency of decision-making between panels through the scoring and banding of applications. They are not assigned any applications but will observe the assessment process and panel meetings, and feed into the tensioning meeting reporting on any differences in the way panels have applied the scores and banding.

Not all college members will be assigned to assess applications at each stage. This will be dependent on the number of applications received and their alignment with college member expertise.
