

Opportunity name: NERC TEAMxUK: Quantifying atmospheric processes in mountainous regions

Meeting Date: 21 August 2024

Application Reference	Project Title	Research Organisation	Outcome
37598	TEAMx-FLOW: Flow Dynamics, Scale Interactions and Mountain Waves for TEAMx-UK	NERC British Antarctic Survey	Successful
39757	Sebastian Gerhard Mutz	University of Glasgow	Unsuccessful
39911	TECTTO: Turbulence Evaluation in Complex Terrain using TEAMx Observations	University of Reading	Successful
42643	TEAMx - Orographic convection	University of Leeds	Successful
44709	OFRAM - Orographic Flow Representation in the Alps at Multiple scales	University of East Anglia	Successful
